This tutorial provides just enough information for you to create and run simple planning problems using E2. Once you're familiar with the basics, see the Documentation page for more details.

- Introducing a simple NDDL model
- How to create a project template using makeproject
- How to run the project
- How to look at the plans created
  - ♦ In the Text Dump
  - ♦ Through Plan Works
  - ♦ Programatically by making more calls to EUROPA$_2$
- Examples
  - ♦ Hello World
  - ♦ Rover
